Dear WIC Nutrition Professional,

As we move into Fall 2006, the WIC Works Resource System team is pleased to send you this mailing highlighting new resources in the area of infant nutrition and feeding.

Occasionally we must evaluate the information and tools we use to counsel our participants. For the past year, the Food and Nutrition Service has been revising the WIC reference for infant feeding based on the latest research. As additional support for this guidance, the WIC Works team has been busy developing and updating materials for the WIC Works Web site. Enclosures with this letter include a sneak peek at the results of this effort:

- *Infant Nutrition and Feeding: A Guide for Use in the WIC and CSF Programs* (FNS-288) will be available this winter as an update to the 1993 version.
- WIC Learning Online will offer three new modules based on the revised infant feeding guide. These will also be launched this winter and will join the 12 modules already available for your education and training needs.
- *Infant Nutrition and Feeding Resource List* has been updated for 2006 and includes a listing of books, pamphlets and audiovisuals published in 2000 or later.
- *WIC Makes a Difference Poster* will spruce up your surroundings and remind you and your visitors of WIC's success and key results.

We've also included

- *Fiscal Year 2000 WIC Special Project Grants: Abstracts of Final Reports* which provides highlights from these innovative projects funded by the Food and Nutrition Service. Read the complete reports at www.nal.usda.gov/wicworks/Sharing_Center/special_grants.html.

Please continue to visit the WIC Works Resource System (www.nal.usda.gov/wicworks) for monthly spotlights and other new materials. If you have questions, please contact us by telephone at 301-504-5414, by fax at 301-504-6409, or by email at wicworks@nal.usda.gov. Thanks for all you do!
